

Zoom Flume

Zoom Down giant winding water slides, careening 300 feet to splash down in the canyon below. Challenging the 10,000 gallon-a-minute "rapids" rafting a 600-foot chute. Twist, turn and splash in total darkness in the all new Black Vortex. Dare to take the plunge in the Mighty Anaconda. Race your friends down the Grand Prix Splash-way. Slip-slide down Thrill Hill. Slash and play in the GIANT Lagoon Activity Pool. Float Gently down the Lazy River. Walk the cable bridge, high above the canyon, to the cliff side restaurant for refreshment and a panoramic view of the park. For our young visitors, Pelican Pond offers a miniature version of the waterslide.

Zoom Flume, the Catskills' largest water park, offers safe fun, excitement and relaxation for all ages in a beautiful natural setting.
